OTHER INITIATIVES

A. JOINING THE ECHO CANCER MukT BHARAT'S: REGIONAL CANCER COLLABORATIVE

CHIP Foundation is now the part of ECHO Cancer MukT Bharat's: Regional Cancer Collaborative. The collaborative aims to build a collaborative action group of experts, prominent institutes working in cancer care space, COEs, Government organizations, and policymakers to improve access to quality healthcare services in the spectrum of cancer care.

This group will provide a platform for deliberation, sharing best practices and experiences among critical stakeholders that would inform and influence the field of cancer in the Indian sub-continent and South East Asia (Indonesia, Malaysia, Vietnam).

B. PARTICIPATED IN THE HEALTHY INDIA ALLIANCE (HIA) PROJECT UPDATE MEETING

The Healthy India Alliance is an organization which aims to create an enabling environment for active participation of health and non-health civil society organisations to prevent and control Non-Communicable Diseases through effective policies, partnerships and programmes

CHIP Foundation was a participant in its periodically conducted Project Update Meeting which was held on July 16th, 2024. Several research projects (ongoing and forthcoming) were discussed and assessed for feasibility.
